

Need to protect your personnel from attack?

With the job of policing getting tougher and the cost of investigating affray in police custody areas getting more expensive, Cronapress has developed a designed for purpose product to fulfil your requirements in these confrontational situations.

- A continuous monitoring illuminated alarm strip
- Active impact zone 10 times wider than anything else on the market
- Low profile to reduce accidental activation
- Assurance at all times to staff that the strip is activated and functional

Give your staff peace of mind 24 hours a day!

Crona Safe-zone can be easily integrated into existing electronic alarm and monitoring systems.

Safe-zone can be programmed for a variety of actions

Fully illuminated - shows the strip is functioning and on standby.

Lights flash on activation - help is on its way.

Examples of activation triggers

Audible alarm - both/ or local and remote

Silent Alarm

On-screen notification to ARC

Can be integrated to video/ audio recording

Designed for use in a number of areas;-

Magistrates Court

Police custody suites

Interview rooms

Prisons

Doctors rooms

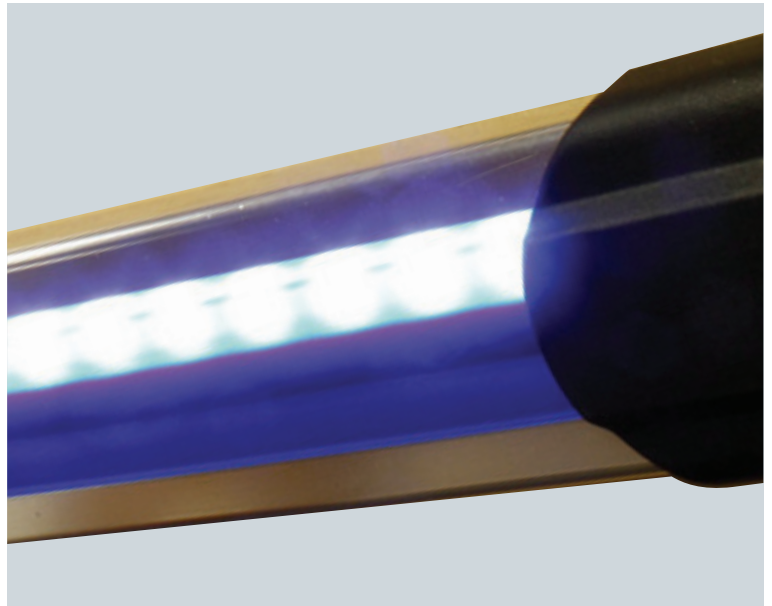

Cash offices

Hospital consulting rooms

Banks

Local Authority offices

Housing Associations

Build and Features

- Full length illumination.
- End of line monitoring - guaranteeing continuity of alarm strip.
- Available in either bright anodised, satin anodised aluminium base
- Robust, flexible, continuous insert available in blue, red and green.
- Virtually unbreakable laminated composite structure, won't tear or rip.
- End caps are designed to be vandal and tamper proof.
- Easy clean.
- Self monitoring.
- Optional anti-microbial coating and impregnation of insert for life long protection against 99.9% of super bugs (kills MRSA, C- Difficile, E-Coli and salmonella at spore level).

Fitting

- Quick and easy to fit on site.
- No special tools required (it's possible to fit 3 times as much safe-zone as any existing product on the market).
- Push- on pre-wired connector ends
- On site sealing to IP65.
- Self aligning base for accurate fitting
- Cut to length.

Give your staff the assurance of help being just a touch away!
